## TODAY'S WEATHER

### FORECAST

Cold, Probable Snow.

EDMONTON TEMPERATURES — 9 a.m. yesterday to 9 a.m. today: Minimum, 3 below; Maximum, 21 above.

FIFTY-SEVENTH YEAR, VOL. LVII, No. 270

## Pilot And Nine Passengers At Dog Hole Bay

**Craft Lost Since Last Wednesday Located After Hurried Search**

HUDSON, Ont., Nov. 26.—Pilot

Len Fraser made ready today to take off when weather permits in search of a plane carrying probably 11 persons unaccounted since Wednesday afternoon from the lake, forest and muskeg wilderness here.

The Toronto-trained pilot was accompanied by his wife, Mrs. Keith Gregson of the airways firm founded nine years ago by R. W. Stewart, Muskoka's first airline operator, and his son, Peter, a farm boy of the Peace River district before establishing at Hudson.

The Stratocruiser plane, a Fairchild, took off at 3 p.m. M.S.T. Wednesday from Pickle Lake for a 120-mile hop to Sioux Lookout, a distance of 100 miles. Officials believe the plane encountered fog and Pilot Ken Smith elected to land at a point considered too dangerous flying visibility.

The Toronto-trained pilot was accompanied by his wife, Mrs. Keith Gregson of the airways firm founded nine years ago by R. W. Stewart, Muskoka's first airline operator, and his son, Peter, a farm boy of the Peace River

district before establishing at Hudson.

**NAMES UNKNOWN**

Reports stated the plane carried nine passengers, all believed miners from the Pickle Creek workings. Their names were not available, but a man who had been at the Pickle Lake last night confirmed passengers were aboard the plane.

Official sources said the pilot had no confidence in the 20-year-old Hudson had made a safe landing and that the plane had suffered no major problem at Root Portage camp, 65 miles north of Hudson. The camp is fully equipped with fuel station and supplies sufficient for several weeks.

Presently officials belief the missing fliers are at Root Portage because the experience of two Pickle

**PONOKA GROUP WOULD CANCEL GOVERNOR AID**

Social Credit Resolution Favors Withdrawal Of Financial Support

PONOKA, Nov. 26.—Resolution favoring withdrawal of financial support from the Alberta Legislature Governor by the provincial government was passed at the annual convention of the Ponoka constituency, the Social Credit League, which also selected 22 delegates.

Other resolutions were passed favoring withdrawal of financial support, and the Social Credit League, it is enacted, the government intended. Sir Samuel said, to have a more active system of training.

"We would like to see a number of blackboards in the principal areas, last year in some cities of almost complete extinction of light, a number of schools in the area where aircraft are reported approaching."

**MOTION IS LOST**

The house turned down by 226 to 186 a bill introduced by Hayden H. Hoyle, member of the Social Credit League, that local authorities be charged specifically with evacuation of people living in crowded areas liable to air raids.

Sir Samuel Hoyle said "the committee on imperial defense has decided to postpone this problem of evacuation. We have certain plans in existence, we will have them completed and placed in a code of war, and then we will have them ready for any emergency."

**Business Woman Not Good Phone Operator, Claim**

WINNIPEG, Nov. 26.—The domestic type of telephone woman does not make a good telephone operator, said Dr. Gustave Adolph Blumenthal, president of the psychology and vocational guidance in an address before the annual convention of the Canadian chamber of commerce. The artistic type makes the best operator, he added.

# Prosecutions By Constables Are Bitterly Assailed

## PROVINCIAL GOVERNMENT ALSO IS HIT

### King's Counsel Makes a Spirited Attack While Arguing Appeal

DUNDEE, Nov. 26.—An appeal for the right of lawyers to handle prosecutions against alleged law offenders was made here by F. C. Moyer, K.C., during the hearing of an appeal in district court Wednesday. Mr. Moyer also criticized the Alberta government for continuing to pursue a course of strict police controls and other persons.

"We have been discriminated against for the last two years," Mr. Moyer told Judge D. A. MacDonald.

### NOT PUBLIC

Mr. Moyer argued some things during the regime of the former attorney-general (Premier Alberta) that he did not dare say in public, having to do with interference in the administration of justice. As far as he could tell, he was the first to insist on the right of lawyers in the courts.

The lawyer also was directed against prosecution of persons by police officers when information came from other police officers but by private individuals. In the appeal he was handed a copy of the *Fixes*, Alta., which had been composed of two of five charges laid against him in connection with an automobile accident.

Information was laid by Ira C. Reid of Halifax, whose car had been damaged in the collision. The prosecution was handled by a police officer, and the lawyer said when his appeal came before Judge MacDonald the conviction was quashed.

### BRIEF BAR GROUP

M. Moyer said the problem of non-legal prosecution was before the Canadian Bar Association.

Mr. Moyer said: "Every province has taken action since this meeting. The attorney general of Ontario has now instructed that no official of the government, police or otherwise shall lay a charge unless he may lay the information themselves."

In legal circles it was believed he meant Ontario.

## LIQUOR PRICE QUIZ PROMISED IN B. C. HOUSE

VICTORIA, Nov. 26.—Attorney-General Gordon Widdes told the British Columbia legislature yesterday he intended to look into all aspects of the liquor situation in the province.

The attorney-general made known his intention after Dr. J. Lyle Telford (C.P., Vancouver East) claimed importation vehicles being bought by the Liquor Control Board at less than was paid for them in Canada, and that they were being sold at higher prices.

Dr. Telford also said the British Liquor Board had bought British Columbia liquor for less than the Canadian board paid for them.

Attorney-General Widdes said the policy of all liquor boards in British Columbia had been to give preference to firms in the province.

## GARRISON CLUB MANAGER DEAD

QUEBEC, Nov. 26.—F. Myton, 69, manager for the past eight years of the Garrison Club, exclusive Quebec military association, died last night.

A native of Cheshire, England, he was a grandson of the famous British General John Moore. When he first came to Canada, he served with the British Columbia Royal Engineers in the Canadian Army of the Commonwealth of Canada in Western Canada and the Pacific Coast.

When he came to Quebec, Mr. Myton was president of the Regina Armistice Association, and later president of the Bath Club of London, England.

### Parks Fair Closes

PARKS, Nov. 26.—The Parks International Exposition, which attracted record crowds, was closed yesterday with a rapid and benedictive tour. During its six-month run, it was officially closed today to reopen next spring for another six-month period.

## Radio Can Never Oust Newspaper, Says Ackerman

NEW YORK, Nov. 26.—Dean Carl W. Ackerman of the Columbia University Graduate School of Journalism, in his annual report yesterday described the United States press as "a public institution" that is "public and not of the few."

Comparing newspapers with the radio, he said:

"The newspaper in a republic may be compared to a two-track road, leading in two directions. Now, in the government and in the public life of the nation, there is a great deal of traffic on both tracks."

"The radio on the other hand is primarily a one-track rail-

### Beggar

WILLIAM F. BECK

67-year-old beggar, pictured in his seat food and lodging at the jail and was promptly obliged. Then he sat on his person and in banks. He explained he was saving the money to buy a car. He was angry when told relatives were on the way to take competent charge of his small fortune.

### NEW BLOW AT INTERVENTION IN SPAIN SEEN

### Belligerent Status For Repatriating 3,000 Men

#### Not Possible

LONDON, Nov. 26.—A stumbling block to the non-intervention committee's attempt to effect withdrawal of all foreign "volunteers" from Spain appeared yesterday, according to New York agents.

It became apparent General Francisco Franco's demands for repatriation of Spaniards as soon as men have been repatriated is unacceptable to the agency, said adding that press reports the British government had agreed to the demand were erroneous.

#### No Final PROPOSAL

Gen. Franco, it was stated, has no initiative of this kind and no such proposal has been made by the British government.

British, French and Savoie representatives, meeting at the British embassy in Madrid, yesterday reluctantly planned a grueling flight right after withdrawal of about 700 ends of the foreigners in Spain.

Spanish government spokesmen have observed in the press that the form of intervention which harms the Republicans most is not the bombing of cities but the economic blockade.

Spanish government spokesmen have observed in the press that the form of intervention which harms the Republicans most is not the bombing of cities but the economic blockade.

NOT AFFECTED

Intervention would hardly be affected by withdrawal of some volunteers, they stated.

The British government had offered to mediate the dispute between Britain and Spain if requested to do so by the non-intervention committee.

Spain has insisted that the majority of Spaniards and the solution Barcelona and Burgos.

### Bribery Charged To Ontario Teacher

LEAMINGTON, Ont. Nov. 26.—Mr. W. B. Bruloff (Inns Salmon Arm) asked protection for squirrels before foresters in British Columbia.

Boys continued to shoot the needlessly regenerating forests would be retarded, he said.

(C.C.T., Burnaby) who last week asked that bear pens in Victoria and Vancouver parks be removed, has been arrested.

He was held yesterday pending trial.

During a disturbance at the school in this village next door to the squirrels were released from their pens one day and shot the next.

He was held yesterday pending trial.

### Woman Is Found Dead In Automobile

WINNIPEG, Nov. 26.—Mrs. Anna G. Anderson (Mrs. W. A. Anderson) died yesterday morning when she was found dead in her automobile in the garage of her home on Grey Creek.

She was the victim of carbon monoxide fumes.

Her son, a provincial coroner, is investigating.

### CATASTROPHIC DEAFNESS MAY BE OVERCOME

If you have Catastrophic Deafness or even just a little hard of hearing or head noise go to your doctor and get 100% of Parton's (Parton's strength), add to it 1/2 pint of hot water. Take a glassful four times a day.

This will bring quick relief from the distressing headache. Clipped nostrils should be avoided. The nose and the mucus stop dropped into the throat. It is easy to prepare little bottles of the mixture.

Anyone losing hearing or who has Catastrophic Deafness or

### TWO NEW FORD V-8 CARS FOR 1938 PRODUCED

### Both Are Newly Styled Throughout, With Larger, Roomier Bodies

Two new Ford V-8 cars, the de luxe and standard, both newly styled throughout, with larger, roomier bodies, are announced by the Ford Motor Company of Canada, Limited. The new cars are now on display at the Ford Motor Company of Canada, Limited, 1127 Lakeside Avenue, Etobicoke, Ontario.

Eighty moderately designed de luxe cars and three standard cars are included in the new line. This is the largest number of models ever offered in the history of the Ford Motor Company of Canada.

### FAIR WEATHER

Both the de luxe and standard cars have the same 112-inch wheelbase and the same 85-horsepower V-8 engine.

The de luxe car is styled to meet the latest requirements of the Canadian market.

Both the de luxe and standard cars are creased near the centre of the car, but instead of over the axles as in the previous year.

### WAR PAINTING

Both the de luxe and standard cars have the same 112-inch wheelbase and the same 85-horsepower V-8 engine.

The de luxe car is styled to meet the latest requirements of the Canadian market.

Both the de luxe and standard cars are creased near the centre of the car, but instead of over the axles as in the previous year.

### WATER COOLER

Both the de luxe and standard cars have the same 112-inch wheelbase and the same 85-horsepower V-8 engine.

The de luxe car is styled to meet the latest requirements of the Canadian market.

Both the de luxe and standard cars are creased near the centre of the car, but instead of over the axles as in the previous year.

### WATER COOLER

Both the de luxe and standard cars have the same 112-inch wheelbase and the same 85-horsepower V-8 engine.

The de luxe car is styled to meet the latest requirements of the Canadian market.

**FRIDAY, NOVEMBER 26**

## FOR MILLIONAIRES ONLY?

Ontario will not hereafter maintain an official residence for the Lieutenant-governor of the province. The \$25,000 per year thus spent will, Premier Hepburn says, be used for other purposes. But that may turn out to be a bad guess. What is called the official residence of a lieutenant-governor is not the same as the entertainment of guests of the province. Unless Ontario is going to do no entertaining in future, part of the \$25,000 will go to pay hotel bills of parties who would otherwise be accommodated at government expense.

But the idea is that anyone should be so proud of being Lieutenant-governor of Ontario that he would be willing to do the province's entertaining at his own expense. In that case, however, who is not extremely wealthy need aspire to be Lieutenant-governor of Ontario in future, or could afford to take the place if it were offered him.

## PROCEDURAL DEDUCE

Two per cent of the cows in Germany have foot-and-mouth disease, according to a despatch from Berlin. For saying as much the head of the Havas news agency was ordered to leave the country. Challenging the correctness of the figure did not stop the German authorities. It only acknowledged its existence, and the markets of the world are barred against German cattle just as effectively as if he had been allowed to remain, perhaps more effectively, perhaps to a degree not really necessary.

If that is a disadvantage to Germany, which it is evidently thought to be, the only way to remove the blockade is to publish the facts with official authority. That is what the Germans have done, simpler, easier, and in every way better, to do that in the first place. But that is not the way of dictators. Next to tyranny, stupidity is their outstanding characteristic. In the authoritarian state, the display of authority takes precedence over common sense.

## UNEMPLOYMENT INSURANCE?

It is difficult to understand why the Provincial Government has not yet known to all the ins and outs of the proposed unemployment insurance scheme before consenting to stand aside and let the Dominion make a second try to establish a scheme of some sort. Prime Minister Mackenzie King has not asked the people to support his proposal, nor has he even retrospective for that matter. All he has asked them to do is agree to such amendment of the British North America Act as will allow the Dominion to set up an insurance plan at its own cost and on its own responsibility.

The Privy Council decided that when Mr. Bennett tried to do this he went beyond federal powers and suspended the field of provincial legislation. The provinces have now made no move to set up an insurance plan or series of plans, as it must be supposed they have power to do. The question now is whether they will let the Dominion have its way, or whether they will set aside their opposition to it, and do what it wants.

If any province refuses consent, there would be danger that a second federal scheme might meet the same fate as the first, amendment of the B.N.A. Act. The provinces would then have to set up a plan at their own cost and on their own responsibility.

The latter therefore seems to narrow down to the country will get an unemployment insurance system if the provinces do not block the way, but will have to continue the makeshift "direct relief" system if they or one of them would consent to it.

## "CRACKING DOWN"

The Government of British Columbia proposes to do something that is probably interesting in motor transport traffic. In Great Britain and legislature are by means of a practice that costs needlessly the expense of keeping United States tourists out of the province, and visitors from across the ocean are reputed to land fast drivers.

The British Columbia ministers apparently think their visitors would rather travel more moderately and improve their chances of getting home. On the other hand record there has reached such proportions that they too have considered, whatever happens to the tourist business.

If the proposed maximum rate of speed is high enough on the splendid highways of British Columbia, they are "plenty" high on the highways of other provinces where roads are less well constructed and surfaced. Since, according to past records, 4,000 persons are due to be killed on the highways of Canada and the United States during the next year, and

1,500,000 injured, British Columbia's lead in the direction of some saving ought to get attention from the legislatures of the other provinces.

## COPYING MUSSOLINI

Prime Minister Hepburn, who has been with him when he had the legislature of Quebec pass the famous "padlock" bill. He is now enforcing the law, in a way to leave no doubt that he thinks it is a good law. He is spreading political creed in his province, that is to say a message to public order and well-being, and that it can be stamped out by methods of repression.

Two weeks ago the provincial police raided the office of a Montreal publication, "Clarke," and seized copies of the sheet, and presumably took the official padlock on those premises also.

These men have been communists, papers like these have been communist papers, so because they have been put under the ban.

That the Government suspected them of being such was all the warrant required for the action taken. Any building in Quebec can be locked up without notice, and the padlock can be used for the spread of communist propaganda or the holding of communist meetings. No legal proceedings are necessary before this is done.

So the business carried on there is suspended, the investment of the owners made unprofitable, and the employees driven into a depression.

There is no question that the Premier is, with reason, afraid that the spread of communism in Quebec, not that he is anxious to curb it, nor that he intends to do that if he can accomplish the purpose. And the constitution of the Government of Quebec is not the instrument of guests of the province. Unless Ontario is going to do no entertaining in future, part of the \$25,000 will go to pay hotel bills of parties who would otherwise be accommodated at government expense.

But the idea is that anyone should be so proud of being Lieutenant-governor of Ontario that he would be willing to do the province's entertaining at his own expense. In that case, however, who is not extremely wealthy need aspire to be Lieutenant-governor of Ontario in future, or could afford to take the place if it were offered him.

## FIFTY YEARS AGO

From the files of The Edmonton Bulletin

At Metlakatla the bishop in whose behalf the Government took such action as caused the majority of the Indians to remove to Alaska, now preaches to a congregation of 43.

A rumor seems to have got abroad that this is the sort of thing the Fathers of Confederation had in mind when they established the Canadian Senate. It lingers the responsibility of protecting "property and civil rights." If so, they must have been the world's original Fascists.

## THIRTY YEARS AGO

Particulars of a battle between British and Indian tribes in which many were killed and scores wounded, according to reports from the Portuguese capital. King Carlos is practically a prisoner, although the palace is surrounded by a huge Communist plot. Curiously all the Portuguese Communists seem to be members of de Jasinos, who was part of the plot and a lot of them have never before been suspected of Communist leanings. Claiming justification by reason of war, Vargas has declared a state of war, seized absolute power, abolished the constitution and the parliament and now rules as an absolute dictator. He promises to establish a corporate state and declares he will remain dictator indefinitely.—*Saskatoon Star-Phoenix*.

**DOG'S DIET**

The other day a brief item crept into the papers about a dog named Illa, the name of Sport. Sport has developed an appetite for raspberries and obviously the story was sent out on the theory that when a dog bites a raspberry it is not a very nice alibi.

We confess that this tribute to Sport caused a faint twinge of jealousy. This column is the proud possessor of a wire-haired, wildish little dog named George who goes in unknown, to song and uncanceled the new picker, no, never, never, never, raspberries, strawberries, blueberries and blackberries.

In fact, she is an authentic berry hound. During the Summer season in New Hampshire she can be seen especially about the house and will strip all the blueberries off the lower part of the bushes if she isn't persuaded to act merely as a pointer.

A berry diet is by no means her only accomplishment, or aberration, as the case may be. She is fond of corn, cantaloupe, puddings, pies, ice cream cones, peaches, olives and grapes, which have to be peeled. Indeed, she eats almost anything which is offered except parsnips and carrots, in which she shares a columnar aversion.

But being a very moral little dog, as dogs go, she also turns to touch alcohol beverages, for which she once grabbed a spoonful of rum under the misapprehension that it was soup.—*New York Times*.

**TWENTY YEARS AGO**

London—Lenin and his associates have issued a proclamation calling for an immediate armistice.

Perth, Ont.—Five hundred farmers paraded the streets here today as a protest against conscription.

W. F. Stevens, livestock commissioner, leaves today for the southern part of the province in connection with the campaign for more bacon production.

Hon. A. L. Sifton spoke in McDougall audience last evening in defence of the Union government.

## TEN YEARS AGO

Thirty thousand bushels of wheat and the oldest business in Bruderheim were destroyed by fire when the buildings of the Bruderheim flour mill burned.

Buchanan—News has reached here that chaos and anarchy reign in the Ukraine, where hundreds have been killed in street fighting. Odessa and several other cities are said to be in control of the Red Army, while others, like Gomel, are gaining ground.

Folsom Prison, California.—Eleven lives were lost when prisoners rioted, barricaded themselves in a jail block, and fought the guards a prolonged battle.

## Today's Text

"They shall lift up their voice, they shall sing for the majesty of the Lord, they shall cry aloud from the sea, again, 24 hours."

Text, Seventh Day Adventist church, Edmonton.

Tomorrow's text selected by Rev. R. H. MacPherson, United church, Buxby.

## ALIENS IN BRITAIN

Great Britain has become alarmed by the enormous influx among undesirable foreigners into the country, and as a result, has decided to do away with the right to practice law indefinitely. The law, which has been in effect since 1914, was given that status by the Home Office.

The British Columbia ministers apparently think their visitors would rather travel more moderately and improve their chances of getting home. On the other hand record there has reached such proportions that they too have considered, whatever happens to the tourist business.

If the proposed maximum rate of speed is

high enough on the splendid highways of

British Columbia, they are "plenty" high on the highways of other provinces where roads are

less well constructed and surfaced. Since,

according to past records, 4,000 persons are

due to be killed on the highways of Canada and

the United States during the next year, and

## Highest Honors for MacDonald Rites At Westminster Abbey

### JAPAN'S INFUX SEEN RISING IN LATIN AMERICA

#### Expert Says Population Trend May Mean Orientation

SAN FRANCISCO, Nov. 26.—Japan has laid the foundations for an enormous increase in population in South America, according to C. M. Goethe, twice president of the Eugenics Research Association and authority on population movements.

Goethe, who has just returned from a population survey of the South American continent, declared that Japan already has a population reproducing unit far more rapidly than any other in the upper which the United States' 125,000 inhabitants was based.

The Japanese are the dreams of three great centers of Japanese population outside of their own country: India, China, and Brazil. One of these is China, the second a great empire in the East Indies, and finally Latin America. In this third area, great emigration to Japan is now being still being made than the world at large.

#### NAMES BRAZIL AND PERU

"We sometimes wonder where Japan has already obtained strong footholds for her Japanese colonization projects are Brazil and Peru."

#### JUDGE IN OFFICE FOR FIFTY YEARS

The original nucleus of the Japanese community in Brazil was by invitation. The latter's labor supply was largely native and in the tropics while adapted to climatic conditions there, is not dependent.

In the state of São Paulo where the great plantations are located there is a large Japanese colony. The men brought women with them and have begun the Orientalization of Brazil.

#### IMMIGRATION BARS AVOIDED

Despite the immigration restrictions, however, many Japanese have entered Latin American countries. Goethe declared there is still a steady stream of Japanese flowing into the continent.

"The Japanese," he said, "have come to Latin America to help develop the Brazilian state of São Paulo, which permits them to utilize Peru as a port of entry to the Pacific coast of Brazil. Already Peru has a Japanese problem of its own."

From Brazil they have spread almost every ship. They bring with them their women and their money. They have brought with them the same slogan of uncontrolled population increase that one finds in the Americas. The Japanese believe that there "one son every second year" is preferred.

With the result that these Japanese landing in Peru eventually make their way across the continent into Hitler's Germany.

#### ENTER TRADES IN PERU

"Already the Japanese are taking over small trades in Peru as well as in Chile and Argentina. They were admitted to Cuban sugar estates during the World War."

Today the Japanese are moving across the Andes and down into the Amazon basin, leaving behind them a trail of small army posts and small trade posts.

Peru feels it is important to block this Japanese penetration both on account of geographical situation and for internal ethnological reasons.

Goethe declared that for 20 years the Japanese have been sacking Saxon as the result of the early immigrants bringing their wives and families to the country facing the possibility of becoming Orientals through the influence of Japanese, thus bringing in foreign women with them.

#### TWICE ESCAPES FLAMING DEATH

HALIFAX, Nov. 26.—Sam Sampson, 20-year-old captain of a camp at Bogged Lake, Halifax, escaped twice after covering off a double escape from death by flames when fire raced through his tent.

Sampson's dog aroused his master; the dog barked when the flames were admitted to a Cuban sugar estate during the World War."

Today the Japanese are moving across the Andes and down into the Amazon basin, leaving behind them a trail of small army posts and small trade posts.

Peru feels it is important to block this Japanese penetration both on account of geographical situation and for internal ethnological reasons.

Goethe declared that for 20 years the Japanese have been sacking Saxon as the result of the early immigrants bringing their wives and families to the country facing the possibility of becoming Orientals through the influence of Japanese, thus bringing in foreign women with them.

#### Moles Fields

BRAGG CREEK, Alta., Nov. 26.—Mole hills may be the last lands of Bragg Creek, Alta., before they are cut off from Calgary. The moles chew off the tame hay roots and fields are undermined, endangering stock and machinery.

The life had advanced so fast for the moles that when he regained consciousness and brought water from the lake to combat the blaze.

#### New Varsity Course

TORONTO, Nov. 26.—The extension of the University of Toronto has announced a new introductory course in natural history dealing with common birds, flowers and trees, to start in January.

LONDON, Nov. 26.—Fog-hound London last night received Rambo, the political warrior who had entered the capital often during his long career. The man, who had died of heart trouble, came back this time in a coffin surrounded by reverent friends.

#### CROWDS SILENT

Crowds stood silent in tribute to the duke outside Paddington station, the political warrior who had entered the capital often during his long career. The man, who had died of heart trouble, came back this time in a coffin surrounded by reverent friends.

#### THE FOG PROVIDED

The fog provided a shroud over the city, seemingly fitting to the somber occasion as the Duke and intimate friends mourned their loss at home.

The Duke will be taken to Westminster Abbey where at a public funeral service at 1 p.m. the man who thrice was prime minister, head of two war cabinets and author of the National Government Cabinet to attend.

The Archbishop of Canterbury will participate at the service. The Duke will be represented by King. All members of the government will be present.

After a strenuous public life, went to bed Saturday evening.

After the service the body will be cremated and the ashes interred in the crypt of St. George's Chapel.

The Duke will then be buried in Spynie churchyard, two miles from Lismorehouse, in the place where he often said he would like to rest.

#### TRURO, N.S., Nov. 26.—Judge D. McLean of Truro has completed 50 years as judge of probate in Nova Scotia.

Judge McLean, who last year celebrated the 60th anniversary of his legal practice with his son Robert Arthur, is the only living Judge in Nova Scotia.

He is the only judge in the province that holds office for life.

The 75-year-old Justice of the Peace, who is a retired Notary Public, was provincial treasurer when he became a judge.

His son, Robert, is a lawyer in Truro.

Judge McLean, who was born in 1862, is the last of the old-timers.

He is the only judge in Nova Scotia to have served 50 years.

## According To Culbertson

**By ELY CULBERTSON**

Mr. Culbertson is conducting through this column a national competition for the best short story. Rate yourself by subtracting from 100 the points for each wrong answer.

**Air Force** Question was:   
Question 6: Rubber bridge. You are South, not vulnerable. Opponents are vulnerable. The bidding has proceeded: West, North, East, South Pass heart 7.

You South hold:

♦ A ♦ K ♦ Q ♦ J ♦ 4 ♦ 3 ♦ ♣ A ♦ K ♦

What would you make over hands one heart 6?

**Answer:** You should pass. The vulnerability conditions, and your partner holding the two aces, help you highly strategic. There is no argument that you can make a game, when the opponents go even a little higher, you can double with the justified expectation of at least one trick. If you do not fall into this trap take a two point reward; no credit for doubling one hand, but take one if you do not win a trump. Two points demerit for any other call.

**TODAY'S QUESTIONS**

Question 67: The bidding has been: South West North East  
1 heart Pass 1 Spade Pass ?

Of the following rebids by South, which is correct?

(A) Three hearts (B) three clubs, (C) two no trumps?

Question 68: In which bidding sequence, (D) or (E), has South the stronger hand?

South West North East

(D) 1 Spade 1 No trumps Pass

(E) 1 Spade 1 No trumps Pass 2 diamonds

**TODAY'S HAND.**

\*Dear Friend: I often have felt that there can be a sense of humor and occasionally indulge in a quiet chuckle. If so, the more the better. I hope you will understand.

South dealer.

Both sides vulnerable.

**NORTH**

## TORY LEADER, MC'GEER HEARD AT VICTORIA

### Appear On Behalf Of Con- servative and Liberal Candidates

VICTORIA, Nov. 26.—Rt. Hon. R. B. Bennett last night told a political rally here that a coalition government planned by the Dominion government in trade agreement with Great Britain and the United States would result in unemployment "to a greater extent than ever before in Canada."

The former prime minister, supporting British Columbia's Conservative candidate in the federal by-election to be held here next Monday, was asked if he had any interest in making the statement.

"I ask you, and the people of all Canadian provinces, what influence do you see to it that no change is made in the Imperial preference for us?" Mr. Bennett was asked.

"Never have you faced such a serious problem — one that affects your future more."

### Friendship With U.S., Canada's Best

VICTORIA, Nov. 26.—The best friend Canada could find was that of the United States, and the United States lumber market made it possible to buy more timber at less cost through changes in the American trade laws, Vancouver's George M. V. Vasey, Vancouver-Burrard said here last night.

Addressing a political meeting in support of R. H. Mayhew, Liberal candidate in the 29 by-election here, Mr. Vasey said: "It is the Union Jack and the Stars and Stripes that are together."

### RCMP ALLIANCE

He said the government of Canada could meet a friendly United States government to bring about a better understanding.

Referring to defense measure being undertaken by the Liberal government, Ottawa's Otto G. Kuehn, Burrard member of parliament, said:

"There are lots of members in the House of Commons who have no idea where Victoria and Vancouver are located. I hope that nothing that should be spent on Pacific coast defense."

Mr. Vasey said he was advanced that the Rocky mountain woods would prove an effective barrier of defense, Mr. McGeer said.

### U.S. Ambassador Still Thinks War Will Be Averted

NEW YORK, Nov. 26.—Belief an European war may be "averted" by the U.S. was expressed by Robert H. Vansittart, British ambassador to England, when he returned from his London post today.

The envoy also said he expected the conclusion of an Anglo-American trade treaty to be signed "within a month or two."

The envoy also said he expected

the entry of Mexico into the re-

covery of Europe, and said he would go immediately to Baltimore for a thorough examina-

tion.

### Davies, Labor M.P., Passes In Wales

CARDIFF, Nov. 26.—David Lewis Davies, Labour Member of Parliament for Pontypridd, died today. Mr. Davies, a miner, was returned unopposed in 1935 and again in 1937.

The envoy also said he expected

the entry of Mexico into the re-

covery of Europe, and said he would go immediately to Baltimore for a thorough examina-

tion.

## FIEND MUST FACE GALLows AT PEMBROKE

### Eastern Jury Deliberates Five Hours On Fate Of Child's Slayer

PENMBROKE, Ont., Nov. 26.—A Renfrew county assize jury last night convicted John Comb, 36, of Pembroke, of first degree murder in the Aug. 3 slaying of 13-year-old Ethel Hedderwick. He was sentenced to death.

The jury deliberated five hours before immediately imposing the death penalty.

John was arrested Aug. 18, three weeks after the girl's body was found in a clump of trees on Crown River Road, 1½ miles from town. She had been shot in the head.

John was accused of killing

the girl because she had been

unfaithful to him.

John was found guilty of

murdering the girl.

John was sentenced to death

for the killing.

John has been confined to

the county jail since his

conviction.

John's defense attorney

said he was innocent.

## Eyestrain—The Great Imitator

By Jackson Bros., Eyesight Specialist

For many years the optical profession ignored small errors in the theory that in time they would cure themselves. We know better now that strain induces more strain and causes injury. We know that if we strain the eye will cure itself. Instead, the eye's great restorative powers than any other part of the body will only give a chance. If we relax the eye after a strain, it may only give a slight defect by wearing proper spectacles. Proper eyestrain disappears and the eye cures its own defects.

Strain is particularly true in childhood. Glasses not merely correct defects in vision if the defect is not serious, and they often help normal health cases often effected cure. If glasses are worn early enough, they need not then quickly disappear. They can say, "Can not my child avoid eyestrain?" The answer is, "Yes, if you let him wear his glasses." It depends largely on the telephone 21147.

## Looking Them Over

By Jack Kelly

Seniors Are Set

McGuire Preps

Beating The Rap

**TOMORROW** night will see senior hockey back for another season—which makes it official that there are only 24 more shopping days until Christmas. Both Walter Hunter of the Dominions and Ira Stuart of the Superiors are making no secret of the fact that they are shopping for the leadership of the Big Six League and both hope to have it by Christmas.

The word going around town among the railheads who have been watching the progress of the two senior clubs is that the Superiors are out in front, that will have the banner. They may be credited with having speed to burn. In previous years, lack of fire for practice owing to weather conditions generally meant that the first few league games would be rather lackadaisical affairs. That drawback is completely eliminated this season so far as Edmonton and Calgary teams are concerned. Thanks to artificial heat, the ice is in top condition for a full month of training. They should be ready to deliver real hockey.

It is no secret that many of the citizens are not satisfied with the class of hockey that present lineup promises. However, even those critics should be fair enough to at least take a look at what the Dominions and Superiors have to offer before condemning them. At the same time, it is not fair to have your valuation of the teams on one game. Every club has had bad nights.

Efforts to form some sort of booster organization to rescue hockey from the depths of mediocrity have been made but hitherto have failed. The primary difficulty appeared to be the drafting of a program that would have a fair chance to achieve the desired result. Conditions arising out of the present set-up of the league here made it extremely difficult to carry on with the idea of staging a ticket selling drive. The proposal of docking out the supporters of each club with distinguishing ribbons was given little thought.

The booster idea was finally shelved until next week when information will be available on the public's reaction to the present bargain offer on tickets.

### McGuire Preps For the Tiger Again

**M**ICKY McGuire is back in another training grind today as he prepares for his second fight this Dec. 1 at the Al Low's Auditorium. The class-colored wrestler champion of the Pacific Northwest has hair from Seville. When they met the last time, Mickey came within an ace of being scuttled in the first round and then staged a brilliant recovery to hand a kayak on the chocolate chin of the Tiger in the fourth. The records show that Freddie Steele is the only other fighter to sleep a punch on him.

The referee bent, strained to satisfy the fans' demand, well, even a better batter than were those four torrid rounds that were fought before . . . that is, if those fighters are the kind that benefit from experience, and both are credited with being that type.

Lewis, one of the cleverest boxers to show here in many years, uncovered one or two weak spots in McGuire's defense. Mickey is confident that those spots won't be there the next time he meets the Tiger. On the other hand Lewis admits that he underlined his lethal power in McGuire's paws in both hands. After the socks he absorbed here in their first meeting, the Tiger will not be exposing any vulnerable spot to be possibly hit.

\* \* \*

### You Just Can't Stop Folks From Betting

**W**HEN it comes to ingenuity, I'll back the gentlemen of the U.S. sporting world against any given odds. Betting on horse races is a lucrative business in man's country and illegal in ours. However, down in California some unsung genius has beaten the law cold by devising a legal method of operating a book.

Set up a room or rooms for entries and let the bettors on all California tracks do their betting there. The bettors pay 40 cents admission charge to this room for the use of the facilities provided: chairs, new, drinking fountain, etc. Then they make their bets through a wicket. These are wired direct to the track on which they are made . . . at least that is the official story. Attorney-General Webb has ruled that this method of betting is absolutely legal provided no bets are wired to tracks outside the state.

### Provost Prepares For Ice Season

**E**xclusive to Edmonton residents, PROVOST, Nov. 26.—Making his first appearance in the Old Glory Auction Ring, O. Corbell of Montreal, bid in three horses for breeding purposes. Total bid \$10,000 for four horses.

Winnipeg officially of last year's tent and five or six new arrivals to choose from, the horsemen said in this district would witness some real racing when the new indoor rink opens.

Those listed to officiate are: George Holmes, president; Joe Ferry, vice president; and Roger Clark, secretary.

A team and captain will be selected as soon as practices commence.

### Dempsey Referees As Casey Crushes

**T**ORTONO, Nov. 26.—Steve (Crusher) Casey of Ireland defeated George Scott of Scotland in two straight falls in the first round referred by Jack Dempsey, former heavyweight boxing champion, here last night.

Casey, 22, scored the first fall at 2:20 p.m. when he was conceded by Clark, 25,33, who was twice injured. Clark weighed 218.

**D**utch Clark Quits

Thomas, Public Administrator, will have until the 20th day of January, 1938, to file their claims and all other documents relating thereto with the Public Administrator, and all other documents relating to the assets of the deceased among the surviving creditors, or to the claimants to the claims of which notice has been given, or to the heirs to whom they have been brought to his knowledge.

Dated this 24th day of November, 1937.

J. M. THOM, Public Administrator.

### Old Age Pension Woman Found Dead

**DETROIT, LA. PRAIRIE, M.D.** Nov. 26.—Mrs. M. E. McEntee, 62, old age pensioner, was found dead yesterday in her home here by firemen called to a house fire in the basement where she lived alone. Dr. W. E. McEntee said he believed she had been overcome by smoke.

A spike of the wide spread of its front legs, which it had pulled up under its body, held its hind legs outside of the front legs when running.

## LOST KINGDOM

By OREN ARNOLD

On coming from Paul's cabin on the rimming board of his sedan and read my mail, oblivious of Arizona's autumn which had relaxed much of its summer power.

Eight of the letters were answers to a long classified advertisement which he had mailed to New York newspapers a month ago. Of these, one instantly excited him.

"Dear Dr. Barry:

"Please hold ad infinitum for a partner to explore the ancient cliff dwelling on your ranch. That

is, we need a cook, a partner,

and a horse to go with us."

Three horses were an Indian who seemed to have lived forever, and who still occasionally now roamed about the village of the Indians, by zone, to-day.

"Next good cook," Bob replied, "you better um. Then horses. San Juan Cook beans, meat, everything you want to go camping. You say?"

Then Harry wouldn't be rushed when he would be primed with a cigar, a bag of candy, and the purple silk stockings of the Indians.

He might have heard of him—Elizabeth C. Lane—before he had the time to study archaeology, though. "I see you did," Harry said, "but I will not tell you what I know."

Father didn't stay archaeology, though. "I am not a good cook," he said, "but I can make something besides just putting up money. I know how to read books."

You can investigate to be sure I am not a good cook," Harry said. "My lawyer said you would probably want to do that." I enclose a check for \$100.00 to help you get a good cook, and will pay the remainder when I arrive."

"Cardinal," Harry said. "M. M. LANE?"

"I'll wait for you at the station," Harry said. "I'll be back in a week. And I'll be back in a week."

"Say, Mr. Withers," he called to the postmaster, "when does that train come in?"

"Tuesday and Saturday," Harry said.

"Tuesday and Saturday," Harry said.

"Dinner at 6 o'clock. They have grub here, you know, then 60 on grub."

"One o'clock? Jiminy! Well, it's lucky I came in today, else I would have to leave town to get to the train. I'll be back in a week."

Bob was half smiling, half a friend's soul. "I think that just happens a man named named Lane, is coming out from the East and the business is a due soon."

I hope he comes in a day or two soon. In fact, I didn't expect him at all, but I'll write around again. He sent me a telegram, though, so he must be around enough, I suppose." He went on.

Bob Barron, half smiling, has been here for weeks at a time, but he's highly sociable in town, but after this was a private business.

No man, nothing like him, he evaded and grinned good-naturedly at the postmaster.

He had a good time, though. If this fellow Lane behaved in accordance with his name, he would be better luck than he had dared expect. The other letters, he reflected.

Bob Barron had read him sensibly, but then the lone passenger, a girl, came up to him.

"No man, nothing like him," he addressed Bob, "but he's there—here! The town is much smaller than I expected."

He glared at her, almost fiercely. He fumbled with his hat.

He fumbled with his hat.

But then the lone passenger, a girl, came up to him.

"No man, nothing like him," he addressed Bob, "but he's there—here! The town is much smaller than I expected."

He glared at her, almost fiercely. He fumbled with his hat.
